

Specialist Backup & Disaster Recovery Solutions

ASL has over 25 years of specialist knowledge in providing robust IT solutions to small and mid-sized UK businesses.

Regardless of company size, an effective backup & disaster recovery (DR) plan is vital. Losing data is a fundamental problem, but the failure to quickly restore that data can lead to serious consequences including but not limited to loss of earnings, customers and reputation. Business continuity can only really be guaranteed with professionally implemented and regularly tested backup & disaster recovery services.

ASL design and implement disaster recovery plans that minimise service disruption and financial loss, caused by unexpected IT outages.

Our services allow you to quickly recover all key IT systems, business applications and data, so that you can carry on with business as usual.

Why outsource your backup & disaster recovery strategy?

We are specialist disaster recovery providers for major ERP systems. By outsourcing these services you gain access to the latest backup and data recovery technologies, which offers you the ability to save on:

- ✓ Hardware to act as backup servers
- ✓ Backup and software licence fees
- ✓ Man-hours wasted managing your own backups

Call ASL on **0345 862 0350** to discuss your managed backup and disaster recovery requirements in more detail.
