

IT Support Services

At ASL we provide comprehensive support services. We can take care of your day-to-day IT issues, support your IT team, key decision makers and wider team, with the goal of taking pressure away from your internal resource.

How will ASL support your IT systems?

We deliver 1st, 2nd & 3rd line support and extended support services which can be tailored to your unique business needs.

ASL 1st & 2nd line support

- Windows and Mac Desktop Support
- General application support, including Microsoft Office and Microsoft 365
- Monday to Friday 8.30am to 5.30pm
- Comprehensive and user-friendly remote support
- Proactive IT Support with fast response times (with SLAs)
- Printer support
- On-site support (as required)

ASL 3rd line support

Using our specialist knowledge in modern technology, we enable you to make informed decisions about what technologies you should be implementing into your environment. We help with the deployment of your chosen technologies and enable your on-site IT staff to deal with day-to-day issues. Any problems that are complex can be passed to us, we can then assist in resolution or if needed we can refer to our partners for assistance. We are constantly updating our skillset, so you don't have to.

- Active Directory, Entra ID and Identity Management
- Backup & Disaster Recovery Solutions
- Exchange (Hosted & On-premise)
- Hardware Assistance
- Server Virtualisation VMWare and Hyper-V
- Network, Firewall and WAN Troubleshooting
- Wireless Networks
- Remote Desktop Services
- Storage Area Networks (SANs)
- Windows, Linux and Unix Servers
- SQL Server (Clustering, Mirroring, Transaction Log Shipping)
- Telephony from Gamma, Teams DR and Ring Central
- Desktop and Laptop Hardware Support
- Azure Support
